Intermediate
Arwachin Bharti Bhawan Sr. Sec. School
2014

Matriculation
Arwachin Bharti Bhawan Sr. Sec. School
2012

Languages

- English
- Hindi

Professional Experience

Software Engineer
Genesis Infocom | March 2023 - Present

Worked on log catalogue grouping on a log management system using React and discussed issues with team members to provide resolution and apply best practices. Updated old code bases to modern development standards.

Attended bunch of sessions to understand various process and tools used and done various POC for the self-learning curriculum. Attended code walkthrough of various projects by seniors to get in-depth knowledge of work flow used in our team.

PROJECTS   UNDERTAKEN

Genesis

Log Management Dashboard
Responsible for.
Worked on an in-house log management system and was responsible for building **Sidebar, Navbar, Widgets, Graph charts** and **Progress bars, Tables, Routing, Dark-Mode**. Technologies used: **React Js, Redux**.

Personal Projects

WanderHub
Made a responsive web application called WanderHub developed using **JavaScript**, **MongoDB**, and **Express.js**. The platform allows users to explore and discover various listings for accommodations, sign up as hosts or guests, and leave reviews based on their experiences.

Movie Hub
A responsive website which shows movies and TV shows details including ratings, genre, category and year of release along with various other features.
Technologies used: **React**, **Redux** and **SCSS**.

E-Commerce
A Myntra shopping website clone which shows product listings and a cart page that shows total products added from listing page which then calculates total price.
Technologies used: **React**, **Redux**, **Bootstrap, Node Js**.

Food Delivery App
A Food delivery website similar to Zomato which shows content related to food items, top brands and hotels and restaurants nearby based on ratings.
Technologies used: **React Js**.

Weather
A weather website which shows current temperature, humidity and wind speed based on location provided.
Technologies used: **React Js**.
